

## Overview of Year 2 Klamath BIL Process

- \$15m for restoration proposals for “Klamath Restoration Activities”
- Eligibility – open to most everyone
- Pre-Proposals due by April 14, 2023
  - [KlamathBIL@fws.gov](mailto:KlamathBIL@fws.gov)
- FWS will consider proposals ranging from \$100K to \$5M\*

# Key Features of Year 2 BIL

- Summary/Abstract Section of Pre-Proposals – ~ 750 words less
  - Plan language summary, purpose of project, activities to be performed, deliverables, etc.
  - **“The Service may share your proposal with others in order to coordinate funding, obtain additional perspectives, and gauge the level of support for the proposal.”** - Do not include personal info in these summaries.
- FWS will invite ‘full-proposals’ from highest scoring pre-proposals

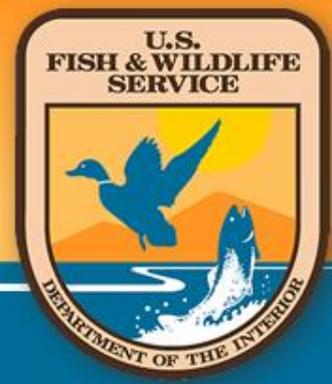

# Key Dates for FWS Year 2 BIL Process

- April 14, 2023 – Pre-proposals due
- June 14, 2023 – FWS invites full proposals
- July 14, 2023 – Full Proposals Due
- By Mid-August – Announce Awards
- September/October – Obligate funding

*Klamath River*

## \*\*\$5M+ Projects

\* Special consideration will be given to projects over \$5M

- Do these proposals exist? Are they ready to be considered this year?
- Looking for projects that will have a high-impact, high-value on the Basin (e.g., once-in-a-generation opportunity)
- Will these proposals have an impact at a landscape scale?
- Do these projects have multiple co-sponsors?
- Funding for these projects would need to be leveraged with other feds/state agencies, so the sooner we know what's out there, the sooner we can have meaningful conversations about funding/funding strategies.
